## R I C H

### JD Jojoba Aqua Cream Base

A light and smooth oil-in-water base cream that combines the unique properties of JD Jojoba Oil with additional natural based products, creating a smooth texture that is easily absorbed by the skin. Can accommodate up to 20% oil, wax, silicon, water extracts, active ingredients and more, creating a one-of-a-kind moisturizing and mollifying cream.

**HIGHLIGHTS** A natural base containing about 15% JD Jojoba Oil, which is combined with other natural ingredients. This combination of materials is used to create moisture and renew the skin. Can be used as is as a face cream or incorporated with up to 20% of additional substances. This base is very convenient for production, prepared only through mechanical mixture and requiring no homogenization or heating. Simply insert all relevant ingredients and mix for 60 seconds. Ideal for use as a base for face and body creams.

**Recommended dose:** 5 to 100 %

**Packaging:** 5kg (standard), 10kg; 25kg (optional)

**Applications:** Skin care, sun care, baby products.

## Formulas
