JD Jojoba Butter

A unique blend of JD Jojoba Oil and other natural waxes, JD Jojoba Butter is a soft and silky butter that is quickly absorbed by the skin, leaves it feeling soft, silky and extremely nourished.

Can be used as a nourishing butter or as an ingredient in various cosmetic products.

HIGHLIGHTS

A natural base containing up to 80% JD Jojoba Oil and other natural ingredients. Combines the dermatological benefits of Jojoba in a smooth, easy to apply butter form. The butter is easily absorbed, non-sticky and leaves the skin feeling extremely silky. Can be used as a standalone butter or in combination with active substances and odors, creating a unique cosmetic blend.

Recommended dose: 5 to 100%.

Packaging: 5kg (standard), 10kg; 25kg (optional)

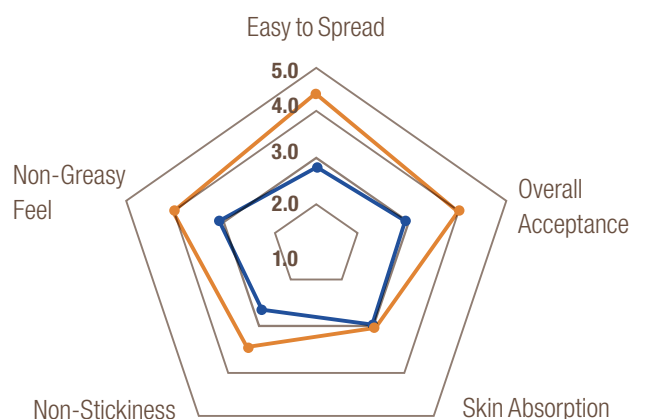

Applications: Skin care, anhydrous care, lip care, hair care, cleansing products, sun care, emulsions, sticks, coloring cosmetics, pressed powders & baby products.

Available in: Golden or colorless natural/organic forms.

Sensory test: Consumers prefer JD Jojoba Butter over Shea butter.

Sensory analysis

Consumers prefer the JD Jojoba Butter over Shea butter

— JD Jojoba Colorless Butter
— Refined Shea Butter

30 volunteers at ages 35-60.

Formulas

JD Jojoba Rejuvenating Peeling Butter

Contains Jojoba beads that serve as mild, mechanical exfoliants, re-surfacing and smoothing the complexion, while stimulating the body's metabolism and blood circulation.

JD Rejuvenating Peeling Butter provides an instantly softened and clarified skin.
