

ACTIVE

JD Hydro Boost

A natural “Biome-friendly” Polysaccharide for anti-aging active beauty. JD Hydro Boost is an innovative edible fiber sourced from sugar cane for maximum robust and consistency, featuring unique anti-aging properties.

JD Hydro Boost provides a deep moisturization effect, aiding in the repair of skin cells, reduction of wrinkles, and balancing of skin microbiome. The fiber is perfect for leave-on applications – face/body creams, gels, masks, ampoules, patches – as well as rinse-off solutions, including dry scalp shampoos or moisturizing body washes.

JD Hydro Boost consists of 80% low molecular weight (average 700 Da) oligosaccharides, and 20% high molecular weight (average 1000 kDa) polysaccharides. Repeated clinical and ex-vivo studies have demonstrated the fiber’s ability to penetrate the upper epidermal layers of the skin, promoting the activation of Extra-Cellular-Matrix mechanism, reformation, and secretion of Collagen-1.

CLAIMS

JD Hydro Boost based formulations shows:

- Promotes Pro -Collagen-1 secretion and increases Extra-Cellular-Matrix remodeling
- Promotes skin rejuvenation by accelerating epidermal turnover
- Anti-aging agent - reduces wrinkles and provides a vital skin appearance
- Film-former for smooth skin appearance
- Humectant - Deeply moisturizes
- Shows “biome-friendly” properties

KEY BENEFITS

Natural, vegan
and gluten-free

Contains Omega 9
and Vitamin E

Shelf life of
24 months

Safe to use for
all skin types
