Lemon Flavor	Citrus Limon (Lemon) Fruit Extract	0.2	
		100	

PROCESS

- 1 Phase A - Heat up to 85°C and mix until fully dispersed.
- 2 Phase B - Heat to 85°C in a separate tank and mix until fully dispersed, then mix into phase A for 15 minutes, then begin cooling down to 55°C while mixing.
- 3 Phase C - When the temperature is below 55°C, add phase C and mix until solid butter is formed.

The information and data included herein, are provided to the current state of knowledge of Jojoba Desert (A.C.S) Ltd. (hereinafter "JD"), and are intended to provide general information about JD's products. It is the user's responsibility to determine the suitability and completeness of such information for the user's particular use (including performing any necessary confirmatory tests). Due to possible changes in Jojoba Desert's products and applicable national and international regulations and laws, the condition or composition of the said products may change. Users must obtain and follow latest versions of relevant safety data sheets before using or handling any of the JD products.

JD makes no warranties, express or implied, it does not guarantee the accuracy of the information provided above, nor does it undertake any responsibility in connection with any use of the information contained herein. JD will not be responsible or liable for any loss or damage that may occur from the use of this information. Nothing contained herein shall be construed as providing any permission, recommendation, or inducement to practice any patented invention without permission of the patent owner.
