

# JD Esteris Plus

Oil Free Jojoba  
Hydrogenated Wax Esters

## Effortless Stability. Superior Texture. Maximum Performance.

JD Esteris Plus is a premium line of oil-free hydrogenated jojoba wax esters, enriched with natural Tocopherol (Vitamin E). Designed as **multifunctional body-forming agents**, they enhance **texture structure, formula stability, hydration, and sensorial performance** across a wide range of applications — from lightweight oils to solid formats. Available in multiple melting points, JD Esteris Plus offers tailored formulation versatility, helping create textures from transparent sun oils to glossy lip care, buttery balms, and firm deodorant sticks.

JD Esteris Plus is **biodegradable, fragrance-free, non-irritating**, and **compatible** with natural and synthetic UV filters, pigments, and active ingredients. It is a smart replacement for PEGs, silicones, mineral oils, synthetic waxes, and even natural butters where improved stability and spreadability are required. JD Esteris Plus is **biodegradable, eco-friendly, and fully traceable**, ensuring sustainability and purity. Its biomimetic properties make it highly compatible with human skin, enhancing hydration, strengthening the skin barrier, and providing a luxurious, velvety skin feel.

### Key Benefits

- Improve skin protection
- Long lasting hydration
- Glide & creamy texture
- Extra body and strength
- High oxidative stability
- Flexible film forming
- Oil Free, non-greasy
- Multifunctional emollience
- Extra compatibility
- Non-comedogenic
- Safe for all skin types
