

Jojoba Desert Environmental Policy

Jojoba Desert is the world's leading manufacturer and supplier of 100% pure Jojoba oil and its derivatives, operating from the Israeli desert and serving global cosmetics brands, manufacturers, and laboratories. With over 30 years of expertise, we combine advanced agronomic practices, innovative technologies, and deep environmental connection to the desert ecosystem to deliver high-quality, fully traceable, natural products.

Our production processes are based on cold-press extraction, ensuring 100% pure, natural Jojoba oil, free from chemicals, animal-derived substances, and human contact throughout processing.

Jojoba Desert is committed to responsible environmental management and sustainable development across all activities, from cultivation and production to supply and distribution. We strive to minimize environmental impact while ensuring product quality, safety, and long-term resource availability.

Scope:

This policy applies to all entities within Jojoba Desert (A.C.S.) Ltd. and covers activities related to production, and supply of natural cosmetic ingredients.

Key Environmental Principles:

1. Climate & Energy

- ✓ Monitor and reduce greenhouse gas (GHG) emissions (Scope 1 & 2)
- ✓ Improve energy efficiency and promote renewable or green energy use

2. Water Stewardship

- ✓ Reduce water consumption through innovative technologies and efficient irrigation
- ✓ Monitor total water usage and continuously improve water management practices

3. Waste & Materials

- ✓ Minimize packaging waste generation

- ✓ Promote reuse and recycling of materials

4. Biodiversity & Land Use

- ✓ Protect and preserve desert ecosystems and soil quality
- ✓ Monitor agrochemical inputs and prevent soil contamination

5. Pollution Prevention

- ✓ Prevent and manage local and accidental pollution (e.g., spills, dust, noise)
- ✓ Maintain emergency preparedness and response procedures

6. Product Responsibility

- ✓ Ensure safe use of products for customers
- ✓ Promote sustainable product design and lifecycle thinking, including end-of-life considerations

7. Customer Awareness & Advocacy

- ✓ Support customers in adopting sustainable practices
- ✓ Provide information and promote environmentally responsible product use

Governance & Communication

This policy is reviewed every two years and communicated internally and externally, including publication on the website and presented in headquarter office in Hebrew.
